Phone: +82) 010-7599-2509

Github: <https://github.com/nakba888>

EDUCATION

Mar.2025 ~ Present	Sungkyunkwan University Department of Smart Factory Bachelor's Degree Program GPA: 3.5 / 4.5	Suwon, Korea
-----------------------	--	-----------------

RESEARCH INTERESTS

- Computer vision
- Face recognition

RESEARCH EXPERIENCES

- Conducted research on deep learning-based facial recognition, including face detection, alignment, and feature embedding extraction., Sungkyunkwan University, Korea (Mar. 2024 ~ Jun. 2024)

AWARDS AND HONORS

- Bronze Award, WCRC Logistics Robot Competition, University Category, Korea (Nov. 2023)
- Grand Prize, Startup Idea Competition through Big Data Analysis, University of Seoul, Korea (Jan. 2024)

PROJECTS

- Real-Time Lightweight Facial Recognition System Utilizing YOLO-EdgeFace, Smart Factory Capstone Design, Sungkyunkwan University, Korea (Mar. 2024 ~ Jun. 2024)

SKILLS AND TECHNIQUES

- Python (PyTorch, Tensorflow)
- Flutter (Dart)
- C++ (Object-oriented and functional programming)
- Image and video processing using OpenCV, PIL, and MTCNN
